

AMD Ryzen 7 9700X 8-Core AM5 Processor

AMD - 36 months warranty - RRP GBP 309.99 inc VAT

Eight Zen 5 cores, 16 threads and a 5.5 GHz boost at 65 W; a balanced AM5 chip for gaming and creator desktops.

The Ryzen 7 9700X pairs eight Zen 5 cores with 32 MB of L3 cache and a 5.5 GHz peak clock, all inside a 65 W default power limit. Resellers can quote it with a mid-sized air cooler rather than a liquid loop, which keeps small-form-factor and quiet office builds simple. The chip supports DDR5 on AM5 boards and carries basic Radeon graphics for bench testing. No cooler is included, so add one from our CPU Cooling range when building to order.

Specification

Socket	AM5
Cores	8
Threads	16
Base clock (GHz)	3.8
Boost clock (GHz)	5.5
TDP (W)	65
Integrated graphics	Yes
Cooler included	No
Memory support	DDR5
Generation	Ryzen 9000
