

AMD Ryzen 7 9800X3D 8-Core AM5 Processor

AMD - 36 months warranty - RRP GBP 479.99 inc VAT

Eight Zen 5 cores with 96 MB of L3 including 3D V-Cache; the gaming CPU trade buyers ask for by name.

The Ryzen 7 9800X3D places its second-generation 3D V-Cache beneath the cores, which lets it run a 4.7 GHz base and 5.2 GHz boost while holding 96 MB of L3 cache. That cache is what lifts frame rates in simulation and competitive titles, and it is the part most gaming system builders specify first. The 120 W TDP calls for a capable tower cooler or a 240 mm AIO. AM5 socket, DDR5 memory, integrated Radeon graphics for diagnostics, and no bundled cooler.

Specification

Socket	AM5
Cores	8
Threads	16
Base clock (GHz)	4.7
Boost clock (GHz)	5.2
TDP (W)	120
Integrated graphics	Yes
Cooler included	No
Memory support	DDR5
Generation	Ryzen 9000
