

MSI GeForce RTX 5090 32G GAMING TRIO OC 32GB GDDR7 Graphics Card

MSI - 36 months warranty - RRP GBP 2599.99 inc VAT

Flagship RTX 5090 with 32 GB GDDR7 for 4K gaming and local AI; 359 mm, 575 W and a 1000 W supply minimum.

The RTX 5090 is the fastest consumer GPU NVIDIA sells, and its 32 GB of GDDR7 makes it the card of choice for workstation builds running large local language models. MSI's GAMING TRIO OC is 359 mm long and three slots thick. It pulls up to 575 W through a single 16-pin connector, so pair it only with a 1000 W ATX 3.1 supply that has a native 12V-2x6 lead. Allocation is tight: stock is held for account customers and released per order.

Specification
