

Corsair RM750e 750W 80 PLUS Gold Fully Modular ATX 3.1 PSU

Corsair - 84 months warranty - RRP GBP 99.99 inc VAT

The 750 W Gold unit we fit to most RTX 5070 and RX 9070 builds: fully modular, ATX 3.1, seven-year warranty.

RM750e is the default supply in our mid-range build templates, giving an RTX 5070 plus a Ryzen 7 or Core Ultra 7 comfortable headroom. All cables are modular, including the 12V-2x6 GPU lead, which keeps small cases clean. Its compact 140 mm depth suits most mid-towers. Resellers buy it in multiples of five for build batches, and we keep deep stock for that reason.
