

Corsair SF1000 1000W 80 PLUS Platinum SFX ATX 3.1 PSU

Corsair - 84 months warranty - RRP GBP 209.99 inc VAT

A full 1000 W in an SFX shell; the only way to put an RTX 5080 or 5090 into a compact Mini-ITX system.

Corsair's SF1000 delivers 1000 W Platinum power from a 130 mm deep SFX-L sized body, so high-end GPUs are no longer ruled out of small builds. It carries a native 12V-2x6 lead and ships with an ATX adapter plate. Check the case accepts the longer SFX body before specifying.

Specification
