

TP-Link Omada SG2210MP 10-Port Gigabit Smart Switch, 8x PoE+, 150 W, 2x SFP

TP-Link - 60 months warranty - RRP GBP 172.99 inc VAT

Omada smart switch with eight PoE+ ports, 150 W budget and two SFP slots; the natural pair for EAP access points.

The SG2210MP is the switch most Omada deployments are built around. It powers up to eight access points or cameras from a 150 W PoE budget and uplinks over two gigabit SFP slots. Once adopted into the Omada controller, VLANs, ACLs and PoE scheduling are set centrally with the access points. Engineers can power-cycle a stuck camera remotely instead of attending site.

Specification

Ports	10
Port speed	1GbE
PoE	Yes
PoE budget (W)	150
Management	Smart
Rack mount	Yes
